

Our Partners – Metal Recycling Trading Firms

We believe in long-term partnership and our procurement of Post-consumer Aluminium products is no exception. We have a Target of procuring 09% of post-consumer recycled Aluminium of our total Aluminium remelt facility, through our Strategic Partners.

Our Recycling Partners

Our partner S.J.metals are leaders in dismantling and supply of all non-ferrous metals in KSA.

They are one of the leading scrap metal processing companies in the Middle East, a registered company in Saudi Arabia and aptly accredited by Bureau of International Recycling and Institute of Scrap Recycling Industries (ISRI).
